Be Bold.

Bold Clicker

No smartphone? No problem.
There's an easy alternative to safely open
and lock the door. The Bold Clicker allows you
to activate your Bold Smart Lock by the click of a button.
You can easily attach it to a keycord or a keychain ring.
Be Bold. For the benefit of all: it's especially suitable
for elderly, children and very useful for your business.

Specification Bold Connect

MECHANICAL SPECIFICATIONS

PRODUCT DEFINITION	The Bold Clicker allows users to activate Bold smart Locks by the click of a button. The clicker can be installed using the Bold app and the user determines which shares should be synchronized with the Clicker's memory. A push of the button makes the Clicker scan for nearby Bold Locks. A connection is setup with the nearest Bold Lock in range. If the Clicker presents the Bold lock the right credentials the Bold Lock activates.
HOUSING	• No IP rating (Not waterproof) • Plastic with metal keyring • Green and Red LEDs are used for visual feedback
DIMENSIONS	DIAM 35 x 8.2 mm
WEIGHT	7 grams
OPERATING TEMPERATURE	-20 to +50 degrees centigrade (estimation)

POWER

BATTERY	Powered by CR2025 cell coin. Battery included
BATTERY LIFE	Over 4 years based on 10 activations/day

COMMUNICATION

BLUETOOTH 5.0	The Clicker communicates with Bold Smart Locks via Bluetooth 5.0. Up to 50 locks can be connected to one Bold Clicker.
DIGITAL SECURITY	AES128 Encryption both Locally and End-to-End 2-Factor Authentication on accounts
SDK	Native iOS and Android, available on request

MOBILE APPLICATION

IOS APP & ANDROID APP	• The Bold app is used for installation of the clicker, adding it to a user account and synchronization of shares. • During installation the Clicker is added to the user account of the person doing the installation. • The user picks which shares he/she wants to synchronize with the Clicker. Shares can be added, updated or removed via the App with the Clicker in Bluetooth range.
